

## UNG FACILITIES PLANNING & GIS

Version 2.5.0

April 2026

*Exports 218 floor plan PDFs, three space report CSVs, and five campus workbooks*

## FloorPlanExporter\_V2.5.0.py

### Purpose

The primary output step of the pipeline. Iterates through all 218 map series pages in the FICM\_MAP\_SERIES.aprx layout and exports one PDF per floor per building, organized into campus subfolders. Also generates three space report CSVs and five campus Excel workbooks. Distributes all outputs to SharePoint and the U: drive automatically. Before automation, this step alone took a full day of staff time per cycle.

### When to Run

- Weekly, as Step 8 of the pipeline
- Must run from an ArcGIS Pro Notebook — not IDLE, not a standalone Python window
- FICM\_MAP\_SERIES.aprx must be open in ArcGIS Pro with Map Series enabled on FloorsLayout
- Run after FICM\_CFP\_PREP (Step 7) has staged the FMS.gdb outputs

### Requirements

- ArcGIS Pro with FICM\_MAP\_SERIES.aprx open
- Map Series enabled on FloorsLayout
- FMS.gdb populated by Step 7
- FICM\_Distribute\_Outputs.py present at configured path
- Runtime approximately 25-30 minutes

### Inputs

| Item                       | Value                   | Notes                             |
|----------------------------|-------------------------|-----------------------------------|
| FICM_MAP_SERIES.aprx       | FICM_MAP_SERIES project | Must be open in ArcGIS Pro        |
| FMS.gdb\Campus_Floor_Plans | FMS.gdb                 | Populated by Step 7               |
| FMS.gdb\CFP_Floors         | FMS.gdb                 | Drives map series page navigation |

### Interactive Prompts

V2.5.0 replaced hard-coded toggle flags with interactive prompts at startup:

- Generate CSV space reports? (y/n)
- Generate campus building workbooks? (y/n)
- Distribute outputs to shared drives? (y/n)
- Ready to start? (y/n)

## Outputs

| Item                                 | Value                               | Notes                                             |
|--------------------------------------|-------------------------------------|---------------------------------------------------|
| 218 floor plan PDFs                  | temp\FloorPlans_DATESTAMP\[campus]\ | One PDF per floor per building                    |
| Instructional_Spaces_Report_DATE.csv | temp\FloorPlans_DATESTAMP\          | 682 instructional spaces                          |
| Office_Spaces_Report_DATE.csv        | temp\FloorPlans_DATESTAMP\          | 2,286 office spaces                               |
| All_Spaces_Report_DATE.csv           | temp\FloorPlans_DATESTAMP\          | All 8,436 rooms                                   |
| [Campus]_Building_Report_DATE.xlsx   | temp\FloorPlans_DATESTAMP\[campus]\ | One workbook per campus with one tab per building |
| All outputs pushed to SharePoint     | OneDrive FICM_LAYOUTS               | 223 files automated in under 1 minute             |
